## SECTION II - GENERAL TERMS AND CONDITIONS

---

A. **LIMITATIONS:** Use of the rates set forth under Section I is subject to any statutory or administrative limitations, and is applicable to a given grant, contract or other agreement only to the extent that funds are available and consistent with any and all limitations of cost clauses or provisions, if any, contained therein. Acceptance of the rates agreed to herein is predicated upon all the following conditions: (1) that no costs other than those incurred by the grantee/contractor were included in the indirect cost pool as finally accepted and that all such costs are legal obligations of the grantee/contractor and allowable under governing cost principles; (2) that the same costs that have been treated as indirect costs are not claimed as direct costs; (3) that similar types of costs have been accorded consistent accounting treatment; and (4) that the information provided by the contractor/grantee, which was used as the basis for the acceptance of the rates agreed to herein and expressly relied upon by the Government in negotiating and accepting the said rates, is not subsequently found to be materially incomplete or inaccurate.

B. **ACCOUNTING CHANGES:** The rates set forth in Section I of this agreement are based on the accounting system in effect at the time this agreement was negotiated. Changes to the method(s) of accounting for costs which affects the amount of reimbursement resulting from the use of these rates require the written approval of the authorized representative of the cognizant negotiating agency for the Government prior to implementation of any such changes. Such changes include but are not limited to changes in the charging of a particular type of cost from indirect to direct. Failure to obtain such approval may result in subsequent cost disallowances.

C. **FIXED RATES AND CARRY-FORWARD PROVISIONS:** The rates set forth in Section I of this agreement are based on estimates of the costs and proposed accounting methodologies for FY 2007. When actual costs for FY 2007 are determined, adjustments will be applied to a subsequent rate negotiation to recognize the difference between the estimated costs used to establish the fixed rates and carry-forward provisions and the negotiated actual costs.

D. CARRY-FORWARDS: The rates set forth in Section I are inclusive of the below carry-forward (CFW) amounts, representing complete liquidation of FY 2003 and 2004 carryforward amounts, and estimated FY 2005 carryforward amounts. (Note: ( ) denotes overrecovery.)

	Organized Research		Staff Benefits
	On Campus	Off Campus	
Balance of FY 2003 CFW	(\$156,183)		(\$182,427)
Balance of FY 2004 CFW	\$1,247,278	(\$12,284)	(\$324,774)
Estimated FY 2005 CFW			(\$3,895,689)

Upon final negotiation of the FY 2005 carry-forward amounts, any differences between the final negotiated and estimated carry-forward amounts will be liquidated in a future rate negotiation.

F. USE BY OTHER FEDERAL AGENCIES: The rates set forth in Section I hereof were negotiated in accordance with and under the authority set forth in 2 CFR 220. Accordingly, such rates shall be applied to the extent provided in such circular to grants and contracts to which 2 CFR 220 is applicable, subject to any limitations in part A of this section. Copies of this document may be provided by either party to other Federal agencies which have or intend to issue or award grants and contracts using these rates or to otherwise provide such agencies with documentary notice of this agreement and its terms and conditions.

G. DFARS WAIVER: Signature of this agreement by the authorized representative of California Institute of Technology and the Government acknowledges and affirms the Institute's request to waive the prohibition contained in DFARS 231.303(1) and the Government's exercise of its discretion contained in DFARS 231.303(2) to waive the prohibition in DFARS 231.303(1). The waiver request by California Institute of Technology is made to simplify the Institute's overall management of DOD cost reimbursements under DOD contracts.

H. The purpose of this agreement is to establish fixed F&A and Staff Benefit rates for the period October 1, 2006 through September 30, 2007. The establishment of these rates by the Government, based on the accounting system and allocation methodologies in effect at the time this rate agreement is signed, does not represent an agreement that these systems and methodologies are accepted for fiscal year 2007, or for any subsequent year's rate negotiations.

The undersigned hereby declare that the terms of this document have been completely read and are fully understood and voluntarily accepted.

The individuals executing this agreement are authorized to execute for and on behalf of the parties for whom they sign and do so as their free and voluntary act.
